

SHOWING FRIDAY... "Niagara," a motion picture starring Marilyn Monroe and Joseph Cotten, will be shown Friday night on Channel 5's Friday Night Movie. The film, sponsored by Thrifty Drug Stores, also stars Jean Peters. In this drama of guilt and innocence, a disturbed war veteran is marked for murder on his honeymoon by an unfaithful wife.

Rose Parade Committee To Paint Curb Numbers

Torrance residents are beginning to receive new curb numbers at their address, according to Robert H. Vroman, chairman of the Torrance Tournament of Roses Association, fundraising committee in support of the Torrance Float in the Pasadena Tournament of Roses Parade of New Year's Day.

In discussing the plan, Vroman indicated that street address numbers will be painted on the curbing in front of each home and apartment building in the city. The plan will provide a uniform system throughout the community. Numbers will be of patented glass, light reflecting, luminous paint. The first area to receive house numbers will be the Riviera section.

In addition to the obvious objective of raising funds to finance a float in the Tournament of Roses Parade and, hence, greater recognition of Torrance throughout the nation and world, Vroman cited additional advantages to be gained.

"This program will assist all governmental agencies in locating residences in case of emergencies," Vroman said. He mentioned difficulties encountered by members of the police and fire department, ambulance services, and utility companies in quickly locating Torrance residents. Also, he indicated greater ease to be encountered by the general public in finding the residence of friends and relatives.

Vroman was quick to point out that while the program was endorsed by Torrance city officials, payment is not obligatory on the part of the Torrance residents. "The number will be painted in front of each residence without first contacting the owner. Following completion of the painting, a card requesting a donation of \$2 will be left; however, no attempt will be made to secure a fee at this time. Approximately one week later, the resident will be solicited, unless a donation has already been received," he explained.

HAHN REPORTS

Center Offers Aid to Suicide Prone Persons

By KENNETH HAHN
County Supervisor

"Don't call us—we'll call you" is a familiar, well-worn phrase in the modern-day business world of America, but it is one that is never used at the Suicide Prevention Center.

"We much prefer that they DO call us, as a matter of fact," says David Klugman, a psychiatric social worker who coordinates one of the most unique independently operated agencies in the field of public welfare in the Los Angeles area.

"However, if they don't call us and we have in some way learned of their predicament, you may be sure we will call them!"

LOCATED at 2521 W. Pico Blvd., Los Angeles 90008, (telephone: Dunkirk 1-5111), the Suicide Prevention Center is dedicated to saving lives and to furthering basic research on the phenomena of suicide. Manned by a staff of more than 10 psychiatrists, psychologists and social workers, their success is admirable.

Countless lives have been saved and family tragedies have been averted by these highly skilled, professionally trained and dedicated technicians in combating suicide—one of the top 10 adult killers in the United States.

THE SPC's comprehensive plan of attacking suicide includes offering free clinical services on a round-the-clock basis, exhaustive research work, the training and education of students of psychiatry, psychology and sociology to handle the "crisis call," and the primary prevention and public health goals.

The team of research experts, all well advanced academically, also performs an important service for the County's Chief Medical Examiner - Coroner, assisting that office in determining the cause of death in difficult suicide-homicide-accident cases.

Dr. Thomas T. Noguchi, County Chief Medical Examiner-Coroner, is high in his praise of their effectiveness.

FINANCED almost solely by a grant from the National Mental Health Institute administered by the University of Southern California School of Medicine, the SPC's operation is limited in funds in spite of the vital services performed for the community.

Through a recent action by the Board of Supervisors, which I fully supported, a contract has been approved between the county and the SPC. The agreement provides that the SPC will assist the County Coroner's office in such cases at a charge of \$20 per case, an annual charge estimated at \$1,200.

THE COUNTY-SPC rela-

tionship is a two-way benefit wherein the county takes advantage of the expertise provided by the SPC. In turn, the SPC benefits by having access to valuable case history information emerging from the Coroner's suicide-homicide-accident cases.

As a public official deeply concerned about the alarming suicide rate nationally and in our county, I support this preventive program with enthusiasm, and I am most gratified that we have the Suicide Prevention Center to respond to this vital need in our community.
